What is shared equity homeownership?

Shared equity homeownership is a way to lower the cost of buying a home. Champlain Housing Trust's shared equity program enables people to buy a home without a down payment and with a reduced mortgage.

Why a shared equity program?

The two biggest obstacles to buying a home are saving for a down payment and the high prices of homes. Our shared equity program addresses both problems.

Advantages to shared equity homeownership:

- Helps low to moderate income earners become homeowners
- Lower home prices for buyers
- Owner builds personal wealth from equity in their home
- Strengthens communities by protecting long term affordability and property values

Are there any restrictions?

- Homes cannot be rented or sold on the open market and must be owner occupied
- Homeowners are responsible for the maintenance and upkeep of their home and property
- Single family homes require a ground lease that gives ownership of the land to Champlain Housing Trust but allows full use of the property by the homeowner
- There is no time commitment to living in a shared equity home but you must agree to sell the home through CHT to another qualified buyer

How To Purchase / 8 Steps to HomeOwnership

1. Meet income and asset eligibility requirements
2. Attend the one-hour mandatory Shared Equity Program Informational Meeting
3. Complete and submit the Shared Equity Program Application.
4. Attend the Homebuyer Education Workshop
5. Attend one-on-one counseling with a CHT counselor
6. Have a current pre-approval letter from an approved CHT lender
7. Be able to contribute at least \$3,000 of your own funds towards closing costs (typically from \$6,000 to \$8,000)
8. Go Shopping.

In addition to the above eligibility requirements, all CHT buyers will be responsible for paying a \$1,200 CHT transaction fee, payable at closing. The transaction fee covers a portion of the costs incurred by CHT in its facilitation of the transaction.
