“The place was leaking like a sieve and I had knob and tube wiring. I couldn’t qualify for a bank loan... CHT was there to help. It was really easy to go through the process, the paperwork was simple, and everyone was so friendly. Oversight of the job was stellar. They did great work.” –Harriett

Harriett was able to replace her tin roof, rewire the house, and upgrade her bathroom – all with an affordable CHT loan.
